¿Cómo Sobresalir?

Charla: HTGJB5

¿Cómo Sobresalir?

- Asistencias de Cursos
- Asistencias de Proyectos de Investigación
- Tutorías de Cursos o Independientes
- Competencias Internacionales Reconocidas
- Proyectos Personales
- Proyectos de Software Libre
- Voluntariados
- Pasantías
- Deportes o Música

Preparación del CV

Charla: HTGJB5

Preparación del CV

- Información de contacto
- Educación
- Experiencia
- Proyectos, Actividades y Liderazgo
- Habilidades

JESSE KENDALL

123 Elm Street • Miami, FL 33183 • (305) 555-5555 • jkendall@notmail.com

SUMMARY: Adaptable and goal-oriented technical engineering intern with demonstrated expertise in Web programming and migration projects. Completed courses in Web Technologies—Protocols and Applications, Application and Transport Protocols, and Software Engineering along with Corporate Finance and Engineering Economics at the master's level. Won prizes for papers on mobile communication and circuit design.

EDUCATION:

Master of Science in Electrical Engineering, Anticipated Date of Graduation: 20xx
University of XYZ, School of Engineering & Applied Science; Miami, FL, Cumulative GPA: 3.8/4.0

Diploma in Embedded Communications Systems Design, 20xx
Centre for Development of Advanced Computing, Miami, FL

Bachelor of Technology in Electronics and Communication, 20xx
XYZ University of Science and Technology, Miami, FL (graduated in the top 5% of the class)

PROJECTS:

Web Application Using Google Map API - System for PENN Active Map (SPAM), 20xx
Reconfigured the Google Map for a Web application that provided an extensible geo-interface to information specific to the University of Pennsylvania's campus, including locations, shopping, dining, and public transportation.

Compiler Design for "RoboTalk" (Programming Language) in Java, 20xx
Constructed a compiler for a small programming language from a prescribed BNF grammar, incorporating recursive descent parsing, proper data structures, and good programming style.

AOL-Time Warner Merger Case Study, 20xx
Analyzed the bid amount in AOL and Time-Warner's merger plan for a corporate finance course at Wharton.

Link-State Routing in Fishnet Environment in Java
Designed a Java program to act as a node in Fishnet environment, implementing efficient routing mechanisms such as shortest path calculation using Dijkstra's algorithm, link-state flooding, broadcasting, neighbor discovery, and simple packet forwarding. Supported basic "Ping" and "Ping-Reply" packets and loop back avoidance using sequence numbers and TTL.

HISTORY:

Teaching Assistant, UNIVERSITY OF XYZ, Miami, FL, 20xx – Present
Assist graduate students in the telecommunications course *Advanced Web Technologies* with Web-programming projects and weekly assignments.

Technical Engineering Intern, ABC CABLE, Miami, FL, 20xx – 20xx
Debugged and updated the Migration Portal's existing Java code and Perl scripts in the CVS repository on a daily basis and maintained a confidential forum for the project.

- Participated in a team effort on an advanced migration project of two million e-mail accounts and personal Web pages from Adelphia after its acquisition.
- Designed and maintained tools in Java and Perl interacting with LDAP for repairing customer e-mail accounts that did not migrate properly.

Hardware Design Engineering Intern, BCD TELECOM, Miami, FL, 20xx – 20xx
Created and implemented an embedded system for automatic alarm-extension in unmanned repeater stations via the mobile signal (E1) using Motorola 68360.

SKILLS: C, Java, HTML, XML, Perl, JavaScript – UNIX – LDAP, MySQL, Oracle 9i, MS Office, Eclipse 3.2, Microsoft Visual Studio 2005, QA Wizard Testing Tool, PSpice, WinCVS, WebLogic, Assembly 8085/86

EXPERIENCE

Birchbox, New York City | www.birchbox.com
Data Analytics Intern, January to May 2015
- Advised brand partner campaigns on product positioning, sample size, and demographic targets
- Built analytics reports using insights extracted from SQL database
- Created advanced Excel formulas (VLOOKUP, pivot tables, IF statements)

LearnVest, New York City | www.learnvest.com
Content Intern, June to August 2014
- Increased site traffic and conversion KPI's with targeted SEO strategies
- Wrote and published 5+ articles per week (twice employee average) totaling 50 posts
- Trained colleagues in HTML and WordPress shortcuts to increase team productivity

Global Citizens Travel, New York City | www.globalcitizenstravel.com
Community Engagement Director, April to September 2013
- Managed email marketing campaigns for student travel company
- Increased Facebook following by 40% and total Facebook reach by 600%

Minga, Boston, MA | www.mingagroup.org
Founder and Director, August 2006 to July 2010
- Empowered 5,000 teenagers in six countries to take action against child sex trafficking
- Gave peer-to-peer speeches to thousands of students and facilitated 50+ leadership workshops
- Organized 21 Minga clubs in the U.S., Canada, and Hong Kong
- Fundraised over $100,000 through grants and events for awareness campaigns

PROJECTS

Surviving in Numbers, Boston, MA | www.survivinginnumbers.org
Campaign Consultant, March to June 2014
- Raised $6,700 through crowdfunding campaign to fund sexual assault prevention organization

Green Guerillas, New York City | www.greenguerillas.org
Brand & Campaign Consultant, February to April 2014
- Presented goals, tactics, and timeline for "Battle of the Boroughs" community fundraising campaign
- Introduced logo and language changes that nonprofit adopted and still uses today

SKILLS

Tools: Excel, Google Analytics, Salesforce, WordPress, Adobe Creative Suite
Technical: SQL, HTML/CSS, Python, Redshift, Git
Spoken Languages: English, Conversational Spanish and Hebrew

EDUCATION

New York University, College of Arts and Sciences | May 2015
- B.A. in Individualized Study with Honors | GPA: 3.59, Dean's List 2014
- Concentration: Creative Writing
- Minor: Web Programming and Applications

Preparación para la Entrevista

Charla: HTGJB5

```
public class Solution {
    public TreeNode invertTree(TreeNode root) {
        if (root == null) {
            return null;
        }
        final TreeNode left = root.left;
        final TreeNode right = root.right;
        root.left = invertTree(right);
        root.right = invertTree(left);
        return root;
    }
}
```
